

For Immediate Release:

SAP for Utilities ASUG EAM in Baltimore!

New Dimension Solutions [NDS] “EAM Performance — *Delivered*”, will be sponsoring the upcoming **SAP ASUG EAM Conference** being held on **October 18th thru the 20th** at the Baltimore Marriot Waterfront.

We at NDS will also be hosting a unique **Utilities - Specific, 1-Day Conference** on **Wednesday, October 18th**, for education regarding SAP updates and trends for the Utilities Enterprise Asset Management (EAM) Solution and for networking with other utility users. The overall theme for the 1 Day event will be lowering risk and providing best practices to achieve success in the utility sector.

New Dimension Solutions’ **Jeff Briner** will discuss the new **SAP Compatible Units capability** and highlight the Top Ten Reasons to Implement NDS EAM with SAP Compatible Units and how they can transform every part of a Utility business.

Who should attend?

- Managers, Directors and VP’s at Utilities
- Business Process Leaders looking to understand the EAM value proposition
- Those responsible for initiatives that are integrated with SAP
- Project Managers responsible for implementing, integrating, or transitioning to SAP for Utilities Enterprise Asset Management

Learn how to:

- Build your Compatible Units library
- Automate asset unitization
- Stream line Engineering
- Simplify billing
- Drive maintenance and
- Build a knowledge base to deal with workforce and infrastructure issues

Presenters at the event will be a combination of SAP, New Dimension Solutions and Customer companies including Sask Power and First Energy. This event will allow for the delivery of Utility specific information that is not available in the track structure of the main EAM symposium. New Dimension Solutions will also be hosting a special **Networking Dinner** on the evening of the 18th.

About New Dimension Solutions, Inc. “EAM Performance – *Delivered*”
